

A fresh new take on the traditional scavenger hunt. With the **latest technology** available, this is the programme to beat all others! We split the group into teams and each team is given 3 lists of challenges that they must complete. We also create a unique flag for each team that they can all modify, sign, and keep to identify the teams in the photos.

PHOTO CHALLENGES - Each team is given a list of photo's they must take. Each photo must include their entire team and pxts may be with a policeman, in a barbers chair, as a human pyramid etc.

SCAVENGER CHALLENGES - Each team is given a list of items they must collect along the way. These may include some cheeky items, an item related to your company, finding clues on the web and/or newspaper.

LOCAL KNOWLEDGE CHALLENGES - Each team must answer a range of questions relating to the local area to score more points. These include questions on local history, on local sports teams and on your company.

Back at the HQ, the teams will be able to laugh at each others photos on a big screen. A real highlight of the day as we go through a selection of each group's photos, and as you can imagine, as each photo appears the other groups all either complain bitterly that they haven't completed the challenge properly, or applaud a challenge completed well!

With heaps of laughter and raised voices, this is very much a great finish to an event that will have your team buzzing for months!

LOCATION	SEASON	DURATION	Min/Max
